01

PROFESSIONAL PROFILE

Detail-oriented React Developer with 2+ year of experience translating designs into high-quality code. Proficient in React, Redux, and responsive design principles. Collaborative team player with strong problem-solving skills and a passion for learning. Eager to contribute to innovative projects in a challenging environment.

02

EXPERIENCE

FRONTEND DEVELOPER | POPIT SOLUTIONS

(Nov 2023 - present)

- Developed user interfaces using React.js and contributed to backend development using PHP Laravel.
- Demonstrated strong problem-solving skills and attention to detail in resolving technical issues.
- Committed to delivering projects on time and exceeding client expectations through teamwork.

FRONTEND DEVELOPER | DIGITZ TECHNOLOGIES

(Sep 2022 - Oct 2023)

- Developed responsive UI components using React for seamless cross-device experiences.
- Implemented Redux for efficient state management, enabling real-time data updates.
- Conducted rigorous testing, bug diagnosis, and resolution for high-quality digital products.

FRONTEND DEVELOPER | Freelancing

(March 2022 - Sep 2022)

- Collaborated closely with clients to understand project requirements, ensuring accurate implementation of design concepts.
- Conducted thorough testing and debugging, delivering high-quality solutions on time and within budget.

03

PROJECTS

Social Tap

<https://app.tapeasy.me/sign-in>

- Developed dynamic Social Tap web app in React, ensuring seamless user experience.
- Implemented Firebase authentication (Google & OTP) for secure user logins.

LANGUAGES

- English
- Malayalam

SOFT SKILLS

- **Problem-Solving**
- **Attention to Detail**
- **Team Collaboration**
- **Communication Skills**
- **Time Management**
- **Continuous Learning**
- **Patience**
- **Quick Learner**
- **Self Learner**

- Implemented image cropping feature using specific library for enhanced usability
- Integrated React Toastify for user-friendly notifications and feedback.

Poptalk & MIS

- Frontend Developer at Poptalk and MIS Software, specializing in call data management and sales data management web applications.
- Utilized React.js to develop responsive user interfaces for Poptalk, integrating WebSocket calling, SIP libraries, and table management features
- Implemented data import/export functionalities, including Excel integration, to streamline operations in both applications.
- Integrated WhatsApp messaging APIs for seamless communication within Poptalk.

Chocochi

<https://www.chocochi.com>

- Implemented designs using SCSS, enhancing visual appeal and interactivity.
- Utilized React.js and React Router for seamless navigation and user experience.

Elizabeth nursing

<https://www.elizabethinternational.co.uk/>

- Implemented custom CSS styles and Bootstrap components for a visually appealing and responsive design.
- Implemented JavaScript for dynamic user interactions and seamless user experience.

Rewards HR Compensation

- Spearheaded the development of a comprehensive HR compensation and bonus management system. Designed and implemented a user-friendly frontend interface using Vite.js, seamlessly integrating Excel sheet management functionalities and bonus calculation APIs.
- Utilized React Context API for centralized data management, enhancing accuracy and responsiveness in compensation calculations.
- Developed a visually appealing and intuitive user interface for HR professionals. Implemented nested routes for HR and Payroll management sections, simplifying navigation. Enabled PDF generation for detailed compensation and bonus reports.

Sussin

- Implemented Redux for efficient state management, ensuring seamless data flow and real-time updates. Collaborated closely with backend developers to integrate frontend functionalities, ensuring a cohesive user experience.
- Developed intuitive interfaces for multiple user roles, including vendors and administrators. Implemented secure login systems and role-based access controls, enhancing system security and user privacy.
- Integrated secure payment gateways for seamless transactions and used Shiprocket API for streamlined shipping solutions. Collaborated with payment and shipping service providers.
